

From the Desk of the Editor

Last issue of Volume 83 (No.3&4, July-December, 2013 issue) of the Journal of the Association of Engineers, India has by this time reached members and subscribers. I am happy that the printer has resumed his work of printing after prolonged medical treatment. The current issue of the journal is a combined 1&2 (January-June) issue of Vol.84 of 2014 and it is being published in time.

The column of the President of the Association, Prof. Dr. Madhusudan Bhattacharyya as usual aims at sharing his long standing experience in solving industrial problems along with expressing his opinion on some present-day situations. Papers included in this issue are related to mechanical engineering, electronics and communication engineering, water resource engineering, powder metallurgy, illumination engineering, manufacturing engineering and software application.

The journal is enlisted in 'EyeSource'. Hopefully by the end of this year, EBSCO would include the journal in their abstracting service. Journal contents are circulated through Facebook and LinkedIn also. The Association website is newly launched with the web address, **www.aeindia.org.in**. Contents of it are being enriched gradually.

Some selected articles presented in the National Conference on Industrial Engineering (NCIE-2011), 4th International and 25th All India Manufacturing Technology, Design and Research Conference (AIMTDR-2012), and National Conference on Recent Trends in Communication, Measurement & Control (CMC-2012) are included in this issue as was done in the last issue of the journal. This is done after suitable extension and revision as suggested by the honorable reviewers. Hope this issue will draw interest of the learned readers. I sincerely thank the paper authors, and honorable reviewers for their contributions to the journal. That the Organising Secretary of the respective conference has agreed to be the Guest Editor deserves special thank.

Comments and discussion on the published articles and Letter to the Editor are invited from readers to publish in the journal. Contents of the last issue (Vol.83 No.3&4 2013) are included as usual for referral purpose. Look of the first page of the articles is modified by including full name of the journal along with issue number and ISSN. Hope it will be accepted by the readers.

Articles prepared following Author Guideline are invited for consideration for publication in the Journal of the Association of Engineers, India. Good quality papers in varying engineering and management areas presented in a conference may be published in this journal after appropriate extension and revision and after peer reviewing. Conference organizers are requested to contact the Editor in this regard. Detail of the Author Guideline, Declaration Form, Subscription Form and Advertisement Contract Form are available in the Association website, **www.aeindia.org.in**.

Wish you all the Best Season's Greetings!

June 17, 2014

Prof. Dr. Santanu Das
The Editor
