## BOOK REVIEW

**Stores manual**—by A. Deb, B.E., A.M.A.E.  
pp. 126. Price Rs. 3-00.

Procurement and Distribution of stores is fast becoming a technical subject. Engineers are now placed at the helm of stores organisation. In any project, about fifty percent of the expenditure is booked for stores and concomitant responsibility is vested on stores officer. The writer has passed the benefit of his experience as an engineer and as a stores officer, to the storekeepers through this book. This is the first book of its kind in the country and all engineers and storekeepers should possess a copy for their guidance.
