

*From The Principal's Desk....*

*'Reason', the technical magazine of our college, has entered the 4th year of its publication. There were obstacles strewn on the way of its seeing the light of the day. Financial stringencies was one, administrative rigmarole the other, constraint of time was the third and so on. Still we did not relent. The very act of publication of 'Reason' is so close to our heart that we resolved to hop, step and jump over all the hurdles on our path. We are happy as we have been able to live upto our resolution. For, who doesn't rejoice in the thought of*

*taking life's waves and riding them with effortless grace?*

*Our college has stepped into its boyhood from infancy. And if morning shows the day, we are destined to climb high peaks. Our students are doing us proud by their performance; the faculty members are bringing in more and more laurels for the institution; the staff members – and this includes all, even the menial workers – are as committed as ever. This has given us, as an institution, a boldness that has that proverbial genius, power and magic in it.*

*We do have a dream to fulfil. And that dream is woven around the fabric of academic and social obligations we have undertaken. Steadfast in our resolve, we are taking small but sure-footed steps in that direction. For we believe,*

*'Do what manhood bids thee do*

*Look from none, but self-respect, applause;*

*He noblest lives and noblest dies*

*Who makes and keeps his self-made laws.*

*[From the writings of Suso, a German poet]*

*We are sure we shall be true to our 'self-made laws' sooner than expected.*
