Journal Facts

No of volumes published	57
Total issues per year	1
Online ISSN	2455-376X
Frequency	Annual
Editor	Paramjit Singh
Publisher	Botanical Survey of India

Key Features

- Nelumbo primarily publishes the results of taxonomic research
- It is open to researchers in India and abroad working in Plant taxonomy, biosystematics, ethno- and economic botany, phytogeography, endemism and studies related to recognize and conservation of IUCN red listed plant categories

Artha Vijnana

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ Artha Vijnana, started in March 1959, is a quarterly journal of Gokhale Institute of Politics and Economics
- ✓ This is a peer reviewed journal which publishes original articles in Economics and other social sciences
- ✓ Artha Vijnana is published four times a year in March, June, September, and December

Key Features

- Has completed 53 years in 2016
- High quality peer reviewed articles
- Plagiarism check for all the submitted manuscripts using Crossref powered by iThenticate
- Indexing of articles in journals using well known Indexing tools such as J-Gate, i-Scholar, Scopus and Web of Science
- Customization to suit journal publishing requirements
- Every published article is assigned DOI – Digital Object Identifier through Crossref
- Rich archive base dating back to 1985

Journal of Surface Science and Technology

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ Publishing the “Journal of Surface Science and Technology” with an International Editorial Board is the prime activity of the Indian Society for Surface, Science and Technology.
- ✓ The journal covers theoretical and basic aspects of colloid and interface science and its related applications in technology.
- ✓ Publication of conference proceedings and monographs is also undertaken by the Society from time to time
- ✓ The journal covers many topics of which the important ones are

Adsorption
Colloids and biocolloids
Electrokinetics and Electrode Processes
Membranes and Bilayers
Polymers-Surfactant (Lipid) Interaction & Supramolecular Assemblies

Key Features

- The main focus of this journal is basic sciences – preclinical subjects, diseases pathology to diagnostic and therapeutic specialized medicinal and surgical fields

International Journal of Public Health Research and Management

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ Health Research and Management is a bi annual publication published since 2014.
- ✓ The journal is a professional forum to which scholars around the world are invited to share their research experiences for the advancement of perspectives on various public health related knowledge and the intervention of multi professional concerned.

Journal Facts

No of volumes published	2
Total issues per year	2
Online ISSN	2319-5509
Frequency	Bi Annual
Editor	Dr. Steven Wind
Co-Publisher	Informatics Publishing Limited

Key Features

- It is an Interdisciplinary Journal, mainly focus on significant articles on a comprehensive area of discipline emphasizing on health development and policy issues around the Globe

Journal of Health Science Research

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ Journal of Health Science Research (JHSR) is an open access International journal dedicated to publishing research work in the area of health sciences
- ✓ Some of the main areas of focus are Medicine, Clinical Biochemistry and microbiology, Occupational Health, Pharmacy and Alternative medicine
- ✓ The Journal is a double blind peer reviewed journal and is a quarterly publication

Editor	Prof. P. Jijiya Bai
Co-Publisher	Informatics Publishing Limited

Key Features

- The Journal of Health Science Research (JHSR) is a relatively new journal and is being published only this year (2016) onwards

Journal of Academy of Dental Education

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ The journal pertains to areas of original research, case reports and reviews on all aspects of dentistry
- ✓ The journal focuses on Meta analysis, systematic reviews and randomized clinical trials with an aim for evidence based reports.

International Journal of Philosophies in Computer Science

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ The International Journal of Philosophies in Computer Science (IJPCS) is a biannual, open access, peer reviewed journal which covers all frontier issues in computer science as well as its applications
- ✓ Researchers and practitioners are invited to submit their articles that illustrate research results, projects, survey and industrial work in relation with Computer Science and Engineering.

Integrative Journal of Sports Science and Rehabilitation

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ Integrative Journal of Sports Science and Rehabilitation is a bi monthly publication dedicated to topics in physical activity related to function, disability and health
- ✓ The journal focuses on interventions and methods used in rehabilitation, pain and physical activity research.

ISSN (Online) - 0000000

Vol- 1 Issue- 1 Year - 2016

INFORMATICS

Description

- ✓ The journal is a quarterly publication
- ✓ Asian Journal of Engineering Technology and Applications (AJETA) is dedicated to the advancement (and convergence) of engineering and its application
- ✓ It provides the latest information on current developments in emerging technology in electrical engineering and computer science and information theory, as well as reviews of theoretical and implementation oriented research and practical information for use in system design.
- ✓ The journal primarily focuses to publish research work on the following topics

i.	Electrical System and Energy
ii.	Automatic control of electrical instrument
iii.	Electrical instrument control and manage
iv.	Power generation and smart grid
v.	Power managing and renewable energy
vi.	Optimization of power arrangement and generation
vii.	Electrical machine control and implementation
viii.	Other electrical system research on theoretical and practical approach
ix.	Information Technology
x.	Artificial intelligence and application
xi.	Information retrieval and analysis
xii.	Information linkage to electrical system
xiii.	Pattern recognition and monitoring
xiv.	Database and its application to engineering
xv.	Information processing in electrical system
xvi.	Other information technology related with system optimization

International Journal of Health Care and Information Technology

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ IJHCIT is dedicated to the advancement (and convergence) of health care. It provides the latest information on current developments in therapeutics and medical engineering, as well as reviews of clinically oriented research and practical information for use in clinical settings
- ✓ The journal primarily focuses to publish research work on the following topics.

i.	Therapeutic method and clinical setting
ii.	Kinesiological therapeutic methods
iii.	Manipulate therapeutic methods
iv.	Biological therapeutic methods
v.	Mind-body based therapeutic methods
vi.	Therapeutic methods for developmental disabilities
vii.	Medical and Biological Engineering
viii.	Bioelectronics, biomechanics, biophotonics
ix.	Medical imaging, bio-imaging
x.	Surgical technology
xi.	Diagnostic and therapeutic methods, monitoring, drug delivery systems, clinical laboratory
xii.	Medica

International Journal of Information Processing and Convergence Technology

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ International Journal of Information Processing and Information Convergence Technology is dedicated to the advancement (and convergence) of data processing/communication and application
- ✓ It provides the latest information on current developments in data interchange and application to the system, as well as reviews of system application oriented research and practical information for use in actual systems.
- ✓ The main topics covered are

i.	Information Processing and communication
ii.	Data analysis
iii.	Data gathering and Database
iv.	Communication and interchange among Complex System
v.	Data selecting and processing from large scale system
vi.	Data processing in hierarchical system
vii.	Electrical Engineering and Industry Application
viii.	Information processing device realization
ix.	Smart sensor/actuator developments
x.	Processing software developments
xi.	Diagnostic and measurement of data

Wireless Communication

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal on Wireless Communication is a forum for presenting new advances and research results in the fields of Wireless Communication
- ✓ The scope of the journal covers all theoretical and practical aspects of the Wireless Communication, from basic research to development of application
- ✓ The scope of the journal includes developing technologies in Antenna systems and design, Channel Modeling and Propagation, Coding for Wireless Systems, Multiuser and Multiple Access Schemes, Optical Wireless Communications to name a few.

Software Engineering and Technology

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal Software Engineering and Technology is the international archival journal focusing on research and experience that contributes to the improvement of software development practices. The journal's scope includes methods and techniques to better engineer software and manage its development.
- ✓ The scope of the journal includes developing technologies in Software management, quality and metrics, Software processes, Software architecture, modeling, specification, design and programming Functional and non-functional software requirements Software testing and verification & validation Empirical studies of all aspects of engineering and managing software development.

Programmable Device Circuits and Systems

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal PDCS emphasizes on efficient and effective programmable devices and it's based realizations of digital circuits and systems, and provides a central forum for scientists, researchers, engineers and vendors from different disciplines to exchange ideas, identify problems, investigate relevant issues, share common interests, explore new approaches, and initiate possible collaborative research and system development.
- ✓ The PDCS journal significantly benefits a wide variety of academic and industrial sectors
- ✓ The scope of the journal includes developing technologies in Programmable Logic Devices, Analog Circuits and Systems, Digital Circuits and Systems, Field Programmable Gate Array, Analog Filters and Signal Processing, Digital Circuits and Architectures and Programmable Logic Array

Networking and Communication Engineering

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal Networking and Communication engineering is to provide a high sketch, leading edge international forum for the practicing engineers and academic researchers working in the field to contribute, to disseminate innovative and important new work on Networking and Communication engineering technologies
- ✓ The scope of the journal includes developing technologies in Ad-hoc Networks, Mesh Networks, Network Performance, Reliability, and Quality of Service, Modulation Techniques (CDMA, OFDM, Multicarrier, Spread-spectrum, etc.), End-to-end Design Techniques, Software and Cognitive Radio Networks, Channel Modeling and Propagation, Coding for Wireless Systems, Detection, Estimation, and Synchronization, Diversity and Space-time Techniques and Detection to name a few

Fuzzy Systems

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal Fuzzy System gives research works in the theory and applications of fuzzy. It expanded so as to account for all facets of the field while emphasizing its specificity as bridging the gap between the flexibility of human representations and the precision and clarity of mathematical or computerized representations, be they numerical or symbolic
- ✓ The scope of the journal includes developing technologies in Mathematics, Technology Management, Artificial Intelligence, Control, Robotics, Decision Making, Finance and Management, Information Systems, Operations Research, Pattern Recognition, Soft Computing, Uncertainty Modeling

Data Mining and Knowledge Engineering

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ The aim of Journal Data Mining Knowledge Engineering focuses on theoretical and practical research development on knowledge engineering and data mining
- ✓ The scope of the journal includes developing technologies in Data Analysis, Data cleaning and pre-processing, Data engineering, Data extraction and reporting, Data mining algorithms and processes, Data mining techniques, tools and applications, Decision analysis, Knowledge-based/rule-based/case based/expert system design, Knowledge acquisition, dissemination, discovery methodologies and technologies, Database design and architecture, Intelligent system design, Data integration and exchange, Data security and data integrity, Database administration and maintenance issues.

Biometrics and Bioinformatics

<http://www.informaticsjournals.com>

<http://www.i-scholar.in>

Description

- ✓ The Aim of Journal Biometric and Bioinformatics focus on both of these aspects of biology and creates a dais for exploration and progress of these, relatively new disciplines by facilitating the exchange of information in the fields of computational molecular biology and post-genome bioinformatics and the role of statistics and mathematics in the biological sciences
- ✓ The scope of the journal includes developing technologies in Biomedical modeling and computer simulation, Bioinformatics database,Bio-grid,DNA assembly, clustering, and mapping, Telemedicine, Computational genomics, Intelligence, proteomics, structural biology-health,Bio-ontology and data mining, Hidden Markov models, Molecular evolution and phylogeny, Molecular modeling and simulation, Molecular sequence analysis, High performance computing and Parallel algorithms for biological analysis

Automation and Autonomous System

<http://www.informaticsjournals.com>
<http://www.i-scholar.in>

Description

- ✓ Automation and Autonomous Systems focus on recitation fundamental developments in the field of Automation, with special prominence on autonomous systems. An important aim of this journal is to extend the state of the art in both symbolic and sensory based automation control and learning in the context of autonomous systems
- ✓ The scope of the journal includes developing technologies in Technology & Computing, Heuristic and AI Planning Strategies and Tools, Computational Theories of Learning, Intelligent System Architectures, Reasoning and Evolution, Automatic Control, Robotics, Parallel Processing, Programming Languages, Software & Hardware Architectures

Incorporated in 1980, Informatics is an early pioneer in the business of e-Information in India. As a pre-Internet online information service provider, we have been playing a leadership role in promoting e-Information culture across the higher education market of India for over three decades.

Our Group Companies

Informatics (India) Limited, Bangalore: The group's parent company - manages the international business of the group.

Informatics Publishing Limited, Bangalore: A wholly owned subsidiary of Informatics (India) Limited - manages the local (India) business of the group.

Our Products:
